

Advanced Research Workshop (ARW)

Biotechnology and human enhancement: present research and future perspectives

3-5 October 2023

The main goal of this *ARW* is to bring together experts, scientists, and early-stage researchers from **NATO** and **Partner Countries** to discuss the recent advancements and future perspectives in **Biotechnology** and **Human Enhancement Performances**. The main idea is to track down a roadmap that might help bring innovative and breakthrough applications to address the key and emerging challenges for the upcoming years.

*This workshop
is supported by:*

The NATO Science for Peace
and Security Programme
